

TYPE OF CALL Tender

DEADLINE 30/08/2013

INSTITUTION EFSA

CALL OC/EFSA/PRAS/2013/01

MAX BUDGET 150.000 €

TIMELINE 12 month

TOPIC Scenario selection and scenario parameterisation for permanent crops and row crops on ridges in support of predicting environmental concentrations of plant protection products and their transformation products in soil

SUMMARY The objective of this tender procedure is to sign a contract and prepare a report with supporting documentation for development of scenarios and to parameterise these scenarios for permanent crops (vines, pome fruit, bush berries, stone fruit, citrus, olives, hops and permanent grassland) as well as for annual crops grown on ridges (e.g. potatoes) to support the preparation of an EFSA guidance document for predicting environmental concentrations of PPPs in soil.
