

# Thursday's NanoSpin-off TALKS

September 30<sup>th</sup>, 18h.  
Sala de Grados.  
Facultad de Ciencias

Con Inscripción previa

Online: <https://us02web.zoom.us/j/81017392078>

Cátedra **SAMCA**  
de Nanotecnología  
Universidad Zaragoza

**INMA**  
INSTITUTO DE NANOCIENCIA  
Y MATERIALES DE ARAGÓN

Universidad  
Zaragoza

TALK

## Lessons learned from my experience in nanotech company OXOLUTIA

SPEAKER

**Albert Calleja**

Legal representative OXOLUTIA SL

PRESENTER

**Prof. Agustín Camón**

Investigador del Instituto de Nanociencia y Materiales de Aragón.  
Director de la Unidad Técnica de Ingeniería de Microsistemas.

OXOLUTIA SL is a startup company arising in 2010 from Material Science Institute of Barcelona-CSIC with the mission to scale up nanostructured high temperature superconductor conductors from worldwide top lab-scale results. The growth process from that point will be reviewed, highlighting important aspects like technology transfer from mother institution, staff qualification, public and private financing, shareholder's agreements, technology development, time-to-market or IP issues.
