UNITA DIGITAL TRANSITION HUB

2nd EDITION OF THEMATIC WEMINARS

OBJECTIVES

The UNITA Digital Transition hub organizes in March 2026 the second edition of a series of weekly thematic webinars. The aim of these events is:

- Presenting the Digital Transition Hub to the groups that work in the research areas of the Hub.
- Fostering mutual knowledge among the research groups of UNITA universities that show potential synergies in the topics of the Digital Transition Hub.
- Paving the way to potential collaborations that might lead to joint projects or activities.

METHODOLOGY

The structure of each webinar is as follows:

Time	Activity
5'	Presentation of the webinar and the DT Hub (Antonio López)
2'-5' per participant	Presentation of each research group
10'	Discussion about potential synergies and collaborations

The time assigned for presentation of each research group depends on the number of groups that participate. The expected duration for each webinar is 1 hour.

The planned webinars are as follows. All of them will be held **from 16:00h to 17:00h CET**.

Webinar	Date	Registration Deadline
Artificial Intelligence	03/3/2026	27/2/2026
High-performance computing	10/3/2026	06/3/2026
E-learning	17/3/2026	13/3/2026
E-health	24/3/2026	20/3/2026
Green ICT and IoT	31/3/2026	27/3/2026

REGISTRATION

Registration to any of the webinars can be done at the following link:

[2026 THEMATIC WEBINARS - UNITA DIGITAL TRANSITION HUB](#)

There is no limit on the number of participants that can attend the webinar but only the first 20 registered participants can present their group. Participants above this limit will be informed about this.

Participants are encouraged to prepare a 1-page PPT or PDF slide (landscape format) for the presentation of the group. These slides will be merged in a single file and distributed among the participants.

Deadline for registration is **4 days before** the date of the webinar. After the deadline, an email will be sent to registered participants with the link to the webinar, time available to present their group and instructions for presentation file upload.
