

# Regulation of Reimbursement of Expenses of The European Neutron Scattering Association (ENSA)

## Article 1: Status

There is generally no reimbursement of expenses for delegates, observers or the board members.

## Article 2: Exceptions

The ENSA committee can approve reimbursement of expenses in single specific cases which have to be substantiated beforehand in a written proposal. For approval a single majority of the delegate is needed. The vote might be performed in written form and is organized by the board. If all the board members are involved in such a proposal the vote is organized by a delegate not involved.
