

FIRST CIRCULAR ISCOM 2007

SEVENTH INTERNATIONAL SYMPOSIUM ON CRYSTALLINE ORGANIC METALS, SUPERCONDUCTORS AND FERROMAGNETS

INTRODUCTION

The meeting will be held in the Congress Palace of Peñíscola (Spain). Participants are expected to arrive on the afternoon or evening of Monday, September 24th. A Welcome Reception is planned for September 24th evening at the Papa Luna Hotel. The Scientific Program will start on Tuesday, September 25th morning and it will end on the evening of Saturday, September 29th, just before the official Banquet of the conference. The number of participants will be limited to ca. 250.

GENERAL INFORMATION

Registration and Fees: The registration fee, which will include the Welcome Reception, excursion and the official Banquet will be **400 € (250 € for students and 150 € for accompanying persons)**.

Correspondence: All correspondence related with the conference will be maintained through the web site (<http://www.icmol.es/iscom2007>)

Location: All the participants will be accommodated at the Papa Luna Hotel, nearby the Congress Palace. The special conference rates for full board accommodation (arrival 24th, departure 30th) are 450 € for single occupancy and 310 € per person for double occupancy (other options for multiple occupancy and children will be also available on a limited basis). Reservations have to be made through the travel agency "Viajes Clemente". Further details will be given in our second circular.

Student bursaries: A number of bursaries will be available to attend the conference covering registration and/or accommodation expenses. Details and an application form will be included in the second circular and in the web site.

Travel and climate: Peñíscola is located in the east coast of Spain, 145 Km north from Valencia, and 225 Km south from Barcelona. This village is accessible by rail (from Valencia or Barcelona. Stop in Benicarló station) and road (highway AP7). Buses from Valencia airport will be arranged by the organization on Monday 24 Sept.. In September the climate is rather warm (20-30 °C) with occasional showers.

FURTHER INFORMATION

To receive the second circular, a pre-registration form must be filled through the web site.

SCIENTIFIC PROGRAM

The interdisciplinary field of Crystalline Molecular conductors, Superconductors and Ferromagnets brings together chemists, physicists and materials researchers. ISCOM 2007 will be an excellent opportunity to discuss all aspects of this truly exciting field of research including chemistry, physics, materials science, nanoscience, engineering and device fabrication. The conference will cover the following topics:

- Synthesis of new molecules and materials
- Multifunctional molecular materials
- Physics of low dimensional metals and superconductors
- Molecular magnetism
- Molecular nanoscience
- Theory, modelling and computation
- Processing and applications

IMPORTANT DEADLINES

- Pre-registration: February 16th, 2007
- Abstract submission: April 20th, 2007
- Abstract acceptance: May 10th, 2007
- Conference registration and hotel reservation: May 18th, 2007
- Final Scientific Program: June 22th, 2007
